UN WEEK

During UN week, first the grade 5s had presentations about poverty and the grade 10s helped them. Another day, we had an international lunch where everyone brought some food from their culture to share with his/her classmates. On another day, people from an international organisation called "Amnesty International" came to our school to present some workshops about Human Rights. On the last day of UN week presentations throughout the whole school were held, we saw videos, power point presentations, and posters. Each grade had a specific theme to present. The presentations were very interesting and everyone learned something from them.

Grade 6 and 7 during the workshops

The audience during grade 5 presentations, ATUT was there as well.

Community and Service

PIERWSZY KROK

Twice a week students from WIS middle school are going to a place called Pierwszy Krok.

There live children with their mums. Pierwszy Krok is very poor as well as the people who live there. We thought that we could make especially the children's lives a bit nicer, and we are spending time with them. We are playing games and teaching English vocabulary to the older ones.

ORPHANAGE

On Saturdays a group of WIS middle school students take the bus to an Orphanage.

Many of the children of the Orphanage know us already, and they love to play Uno and soccer with us. Every time more and more people join our games, and it feels really good to get to help the children in there and see how they remember our names.

2008-2009 HISTORICAL EVENTS

•**Beginning of Financial Crisis-** In 2008 the Global Financial Crisis started. It originally started in the United States when many banks started lending money to people who couldn't afford paying back the money. As a result of this banks went bankrupt and banks are connected to many other companies, associations, people. Therefore many people and banks lost money.

•**Obama becoming US president-** Barack Obama won the US residential election In November 2009. Obama is the first ever black president in the History of the nation. Many people not only in the US have great hopes that we associate with the new president of the most powerful country on our planet, such as putting an end to the financial crisis that affects us all, ending the war in Iraq, or stopping the Middle East Conflict.

•**Beijing Olympics-** The Beijing Summer Olympics occurred in the 2008 summer. The country which got the most medals was China, followed by the US. The athletes that we will remember after these Olympics are: Usain Bolt from Jamaica who got three gold medals in track and field, and broke three world records. And of course the amazing US swimmer Michael Phelps who got a record of eight gold medals in swimming! Goodness, these guys are amazing!

EURO 2008 – soccer : The event for which all soccer fans were waiting occurred. The European football championship was held in Austria and Switzerland. The winner, Spain, beat Germany in the final (1:0) after a goal by Fernando Torres. Despite Spain's win the team that everyone will remember are the Russians who did an outstanding job, making it all the way to the semi-finals and getting knocked about by Spain. Russia were the ones who eliminated the team whom everyone thought would win the tournament, The Netherlands.

The next "EURO" is going to be held in 2012 in Poland and Ukraine.
